

IONITY is the newly formed joint venture of BMW Group, Daimler AG, Ford Motor Company and the Volkswagen Group with Audi and Porsche. We are here to build a network of reliable and powerful charging stations along major routes across Europe. These stations are comfortable to use and they allow fast charging times due to their capacity of up to 350 kW. As a result, IONITY makes long-distance travel with electric vehicles an enjoyable experience. In Munich we are looking for a

Manager Network Operations Center (m/f)

Your tasks:

- > Responsibility for high uptime operations of the HPC infrastructure in the entire HPC network
- > Ensure reliable operation of charging stations and fast and efficient service
- > Standardizing and optimizing operations and service process across all countries
- > Provide a comprehensive reporting to Management Team about operational performance and quality of the HPC network in his/her region
- > Provide relevant information like energy cost structure to internal stakeholders (e.g. CFO) in order to optimize the business model and support in finding suppliers
- > Support further development of our business model
- > Continuously optimizing OPEX-Backend systems for complex electrical infrastructure (Remote monitoring, remote software updates)

Your Profile:

- > Master Degree in Electrical Engineering or Information Technology, Computer Science
- > Experience in operating complex, decentralized electrical infrastructure (e.g. Gas stations or electricity grid components like transformers / switching stations)
- > Very good IT-background especially with experience in IT-systems for Network management
- > Technical understanding of electrical infrastructure
- > Experience in working with external service providers (i.e. installation, service companies, call center operators) on an international basis
- > Experience in optimizing operational performance of infrastructure
- > Excellent German and English skills, other languages welcome
- > Service oriented, Start-up mentality

Your benefits:

- > New office space and latest IT- equipment, High flexibility and freedom for your own ideas
- > Attractive salary package

We are looking forward to receiving your application (motivation letter, CV, certificates).
