

PRESS RELEASE

BEING A SUBSCRIBER PAYS OFF: GREAT DISCOUNTS WITH HALF THE MONTHLY FEE

- > IONITY PASSPORT tariff for just 5.99* euros per month instead of 11.99* euros
- > Subscribers pay 0,20 euros less in the 24 countries where the network is available - with flexible contract terms
- > Lower monthly fee applies to new customers as well as existing IONITY PASSPORT-subscribers from the next monthly invoice

Munich, Germany, January 23, 2024 - IONITY stands for ultra-fast charging with up to 350 kW and limitless electric mobility in Europe. The pan-European network is now offering even more attractive conditions for subscribers of its IONITY PASSPORT tariff. From today, the monthly basic fee is just 5.99* euros instead of the previous 11.99* euros. In return, subscribers benefit from a discount of 0,20 euros per kilowatt hour (kWh) compared to the local IONITY DIRECT tariff without a contract.**

As of today, IONITY reduces prices per kilowatt hour in Denmark, Norway, Sweden and Austria. For a maximum of transparency, the IONITY charging prices per country can be found on the [IONITY Website](#) and the IONITY APP.

For everyday use, when on vacation, or for frequent drivers

The IONITY PASSPORT tariff is worthwhile from a monthly charging quantity of 30 kWh, which corresponds to a distance of 150 kilometers with an average consumption of 20 kWh/100 km. Commuters, travelers and frequent drivers can charge their electric car quickly, reliably and with green electricity at the many new IONITY charging parks along the freeways and on the outskirts of large cities. The IONITY PASSPORT tariff remains as flexible as ever: the subscription can be booked at any time via the IONITY APP and can be terminated with just one month's notice. For maximum transparency, the IONITY charging prices per country can be viewed on the IONITY website and in the IONITY APP.

* All prices include local VAT and other price components.

** The valid IONITY DIRECT tariff depends on the location where the vehicle is charged. IONITY reserves the right to change the IONITY DIRECT tariff.

About IONITY

IONITY is building and operating the largest open brand High Power Charging (HPC) network along European highways. The HPC charging capacity of up to 350 kW allows maximum charging speeds. As a commitment to sustainability, IONITY sources renewable energy only for both emission-free and carbon neutral driving. In January 2024, the IONITY network counted around 600 charging stations and more than 3,300 HPC charging points in 24 European countries.

Founded in 2017, IONITY is a joint venture of the car manufacturers BMW Group, Ford Motor Company, Hyundai Motor Group, Mercedes Benz AG and Volkswagen Group with Audi and Porsche, along with BlackRock's Climate Infrastructure Platform as financial investor. The company is headquartered in Munich, Germany, with additional offices in Dortmund and outside Norway's capital Oslo. IONITY is an internationally registered trademark.
